Expertise of faculty and guest speakers.

<b>What constructive suggestions do you have to improve this course?</b>
The textbook readings were extensive and we were told we were responsible for the information therein but I was never convinced they actually cared whether we read it. I felt as though it was assigned for the sake of assigning something.
Improve xxx chapter. Maybe some easy exercises.
Grade quizzes so we have more incentive to study for them and keep up on material. More practice quiz questions would also be helpful.
The course syllabus could have been a little bit more organized. The due dates seemed all over the place.
More discussion sessions with instructors.
The final exam should not be a multiple choice exam.
Allow the final exam to be open book

<b>Comment on the effectiveness of the teaching style of the primary course instructor(s).</b>
Dr. X and Dr. Y seemed very approachable. Their lectures were very good, and they were very helpful.
Dr. Y- clearly knows a lot but I didn't feel as though he was *teaching* exactly. Dr. X - was more methodical about conveying concepts, which I appreciated.
Both instructors were excellent
Drs. X and Y are excellent instructors who are very passionate about the material and are very interested in students really learning the various aspects of this subject. It is by far the best course I have taken at this institution. I really appreciated their dedication and their commitment to teaching.
I felt that both Dr. X and Dr. Y are enthusiastic about maximizing the students' experience in this course although I have never personally met them before. They were so positive in encouraging their students to learn.
The instructor did a good job engaging the class in discussion
